I am writing to support the passing of a Pedestrian Safety Ordinance for the City of Dover. I live on Kenton Road in Dover and regularly use Scarborough Road, McKee Road, US13/113, and the Veteran's bypass roads. I regularly see people in various stages of incapacity at many of the intersections of these main thoroughfares.

In addition, I see people soliciting on the roadways which impedes traffic flow. My biggest concern is for people who have addictions that congregate at these roadways and sometimes fall into the roadways with traffic passing. It is only a matter of time before someone is killed because of this.

While I am a firm believer in our Constitution and the freedom of movement, the actions of these people have made our roads unsafe. I personally observed a person who was publicly intoxicated on some substance wander onto US 13 near the Green Turtle and people had to come to his aid and guided him off the roadway as vehicles went around him. These are becoming every day occurrences.

Finally, what does it say about our city when we have people standing at the Intersection of Rt 1 and US 13 falling over inibriated on some substance or soliciting people in vehicles as people ride by the "Welcome To The City of Dover" sign?

Thank you for your time and consideration.
